Academic qualifications

Graduation Date	Specialization	graduation country	University Name	degree
2000	Veterinary medicine	Iraq	Baghdad	Bachelor's
2010	Veterinary medicine	Iraq	Baghdad	Master's
2017	Cell and Tissue Biomedical	United Kingdom	Aston	PhD

Academic Rank

The awarding body for the scientific title	The date of obtaining the title	academic rank
Wasit University	2010	assistant teacher
Wasit University	2017	Teacher
Wasit University	2020	Assistant Professor
		Mr

Positions that have been filled

Time period		Employer	position
2008	2006	Wasit University/ College of Medicine	Tutor and registration manager
2011	2010	Wasit University/ College of Medicine	Tutor and head assistant/ department of Anatomy and histology

2011	2010	Wasit University/ College of Medicine	Registration manager
2011	2010	Wasit University/ College of Medicine	Vice dean for Scientific affair
2013	2011	Wasit University/ College of Veterinary Medicine	Tutor
2013	2011	Wasit University/ College of Veterinary Medicine	Vice dean for Scientific affair
2020	2017	Wasit University/ College of Veterinary Medicine	Tutor
2018	2017	Wasit University/ College of Dentistry	Tutor
2018	2018	Wasit University/ College of Veterinary Medicine	Head of the department of internal medicine and prevention
2020	2018	Wasit University/ College of Veterinary Medicine	Vice dean for Scientific affair
Till now	2020	Wasit University/ College of Dentistry	Tutor

Scientific production (research)

date of publication	folder	the number	country of publication	place of publication	Research Title
2017			United Kingdom	Aston University	The effect of green tea extract compounds on regulation of glucose homoeostasis in insulin-sensitive and breast cancer cells. PhD thesis.
2017	34		United Kingdom	DIABETIC MEDICINE	Effect of green tea extract and epigallocatechin gallate on glucose and insulin levels in high glucose fed mice
2019	1234 (1)	012073	United Kingdom	Journal of Physics: Conference Series	Anti-neoplastic effect of epigallocatechin gallate on breast cancer cells through glucose metabolism
2019	12	11	India	Veterinary world	Molecular and histopathological confirmation of clinically diagnosed lumpy skin disease in cattle, Baghdad Province of Iraq
2019	13	14	India	Indian Journal of Forensic Medicine & Toxicology	Abundant Active Ingredients of Green Tea Regulate Glucose Metabolism in 3T3-L1 Cell Line.
2019	12	6	India	Research Journal of pharmacy and technology	Decaffeinated green tea extract regulates glucose metabolism in insulin-sensitive cell lines
2019	12	11	India	Veterinary world	Molecular and histopathological confirmation of clinically diagnosed lumpy skin disease in cattle, Baghdad Province of Iraq
2020	13	3	India	Veterinary world	Molecular and histopathological identification of ovine neosporosis (Neospora caninum) in aborted ewes in Iraq
2021	14	6	India	Research Journal of pharmacy and technology	Histopathological and hormonal evaluation of interaction effects of ethidium bromide, Nigella sativa, and silver nanoparticle on male rat fertility
2021	21	1	India	Biochemical and Cellular Archives	CLINICAL AND SERUM BIOCHEMICAL EVALUATION OF GOATS WITH HYPOMAGNESEMIA
